

I— LEDGER BRASS · OLD ACCOUNTS BOOK

PROOF = GOLD

FRONT

BACK

The receipt printed in brass — an old accounts ledger, because brass is the proof color in your system.

II — TILL RED · THE CORNER-SHOP RECEIPT

TERRACOTTA, WITTIEST

FRONT

BACK

Real till receipts print in red — so this one does too, in terracotta. The most playful back; the wit of the receipt turned all the way up.

FRONT

BACK

The back in plain ink on paper — no color at all. Letterpressed on heavy cotton, the deboss does the talking; the only color on the whole card is the mark itself.
